TITLE NICHOLS, East Rutherford, N.J.; THOMAS L. BLACK, Informant			CHARACTER OF CASE ESPIONAGE - R

SYNOPSIS OF FACTS:

THOMAS L. BLACK, admitted Soviet agent, instructed by superior, PAUL PETERSEN, about 1935, to locate one NICHOLS, in East Rutherford, N.J., and re-establish contact. NICHOLS described by PETERSEN as metallurgist and MIT graduate who had previously given valuable information to Soviets. Contact not made.

DETAILS:

AT PHILADELPHIA, PA.

THOMAS L. BLACK, an admitted Soviet espionage agent, was interviewed at the Philadelphia Office by Special Agents WILLIAM B. WELTE and the writer. During the course of this interview, BLACK gave authorization for the search of property which he had stored at the Van Poznak Fireproof Storage Warehouse, 92 Howard Street, Newark, N.J.

On June 17, 1950 Special Agents TROY COLEMAN and EUGENE C. JONES, of the Newark Division, searched BLACK's property at this warehouse and among other things secured a green metal strongbox which was identified as being in Box #773. Among the contents of this box was a small notebook which was exhibited to BLACK on June 20, 1950 by the interviewing agents. BLACK identified the notebook as his. In this book was the following entry: "See NICHOLS, E. Rutherford." BLACK identified the notation as being in his handwriting and said that it was made by him following a meeting in about 1935 with his then

Soviet superior, PAUL PETERSEN. At that meeting PETERSEN had instructed BLACK to locate a man named NICHOLS who lived in East Rutherford, N.J., and re-establish contact with him. PETERSEN told BLACK that NICHOLS was a metallurgist who had graduated from Massachusetts Institute of Technology. He said that NICHOLS had at some former time furnished information of considerable value to the Soviets and BLACK's assignment was to locate him, become acquainted with him, and when this had been accomplished, to report back to PETERSEN who would then give further instructions.

PETERSEN had no information concerning NICHOLS except his last name and the fact that he was last known to have lived in Rutherford, except to say that his hobby was microscopy. PETERSEN knew that BLACK was also interested in microscopy and suggested that BLACK use this common interest as a means of becoming acquainted. BLACK said that the name was not spelled for him by PETERSEN and that his spelling of it in the notebook was phonetic. It is possible that the name may be spelled some other way.

BLACK advised that he made no serious effort to locate NICHOLS beyond looking in the current Rutherford Telephone Directory and in the Rutherford City Directory maintained in the Rutherford Library. At the next meeting with PETERSEN, he reported to PETERSEN that he had been unable to locate NICHOLS. PETERSEN said that he was certain that NICHOLS was in East Rutherford and that he would take care of the assignment in some other manner. BLACK heard no more about it and never made contact with NICHOLS.

Reference is made to Newark report of Special Agent Louis G. Turner dated July 20, 1950, entitled, "Thomas L. Black was Espionage - R." Newark file 65-4074. On pages 69 and 70 of referenced report information is set out regarding Unsub Nichols. Thomas L. Black, an admitted espionage agent, stated that he was instructed by his Soviet espionage superior Paul Petersen to contact a man named Nichols at East Rutherford, New Jersey, in 1935. Nichols was allegedly a graduate of MIT in metallurgy. Black claims never to have contacted Nichols.

Newark and Boston should submit reports captioned as the title of this memorandum and efforts to locate and identify Nichols should continue to be reported under above caption instead of in the Black case.

Of the above individuals, BRUCE BENJAMIN NICHOLS, JAMES WILLIAM
NICHOLS, and JAMES SIVITER NICHOL, are being eliminated from this investigation
due to their graduation from Massachusetts Institute of Technology subsequent
to the pertinent period.

The following investigation was conducted by SA RUFUS T. TYSON:

Investigation at the Business Men's Library, Newark, New Jersey
and the Free Public Library, Rutherford, New Jersey, revealed that there
has not been a city directory published for the City of East Rutherford,
New Jersey for the years 1931 through 1945.

[REDACTED] East Rutherford, New Jersey Police Department
was contacted and in turn contacted several of the older officers of the
Department. By this means, [REDACTED] furnished the list of names of persons
by the name of NICHOLS who were recalled as having lived in East Rutherford **2**

NK 65-4116

at one time or another. [REDACTED] stated most of the individuals listed ^{7c} definitely did not attend Massachusetts Institute of Technology. The remaining individuals listed were found to have attended East Rutherford High School, but it was ascertained that these individuals either had not made sufficiently high grades to be admitted to college, had not taken courses which were required for college admission, or had graduated from this school subsequent to the pertinent period.

GEORGE HARRIS NICHOLS, 29 Hillcrest Road, Madison, New Jersey, who graduated from Massachusetts Institute of Technology in 1923, was telephonically contacted [REDACTED]. He advised that he had ^{7e} never lived in East Rutherford, New Jersey and stated that he did not know any other person by the name of NICHOLS who graduated from Massachusetts Institute of Technology.

[REDACTED] Madison, New Jersey Police Department, ^{7c} advised that GEORGE HARRIS NICHOLS was a long time resident of Madison, New Jersey who has always maintained an excellent reputation in that community.

Reference to the 1935 and 1936 telephone directories for East Rutherford, New Jersey, reflect that only a JASPER NICHOLS and a J. N. NICHOLSON, possess similar names and resided in that town in 1935. It was ascertained that neither of the above individuals ever attended Massachusetts Institute of Technology.

The telephone directories for 1935 and 1936 for the adjoining town of Rutherford, New Jersey, were checked for all individuals of a similar name. In this connection, all individuals named NICHOLS or NICOL were either contacted or were checked through other residents of the town with negative results regarding attendance at Massachusetts Institute of Technology.

Additional information concerning ALEXANDER GEORGE NICHOLS, aka ^{7c} Nicholsky, was set forth in the report of SA FREDERICK M. GONNORS dated September 8, 1950 at Boston captioned, "THOMAS L. BLACK, was., ESPIONAGE-R".

A review of visitors' records at Evans Signal Laboratory, Fort Monmouth, New Jersey during investigation in the case entitled, "ALAN HYMAN COLEMAN, ESPIONAGE-R", reflects that in 1944 COLEMAN was visited by a JOHN A. NICHOLS, a representative of the B. F. Sturtevant Company, Newark, New Jersey. It is noted that the above company is presently located in Camden, New Jersey and the identification of JOHN A. NICHOLS is being undertaken in the Coleman investigation.

Metallurgy graduates of MIT by name of NICHOLS listed. Individuals named NICHOLS or similar spelling known to have resided East Rutherford or Rutherford, N.J. in 1935 checked with negative results.

-P-

DETAILS:

THOMAS L. BLACK, an admitted Soviet Espionage Agent, has advised Special Agents of the Philadelphia Office that in about 1935 his Soviet superior, PAUL PETERSEN, instructed BLACK to locate a man named NICHOLS who lived in East Rutherford, New Jersey and re-establish contact with him. PETERSEN told BLACK that NICHOLS had formerly furnished information of considerable value to the Soviet and BLACK's assignment was to locate him. PETERSEN indicated to BLACK that NICHOLS was a metallurgist who had graduated from Massachusetts Institute of Technology and had a hobby of microscopy.

BLACK advised that the spelling NICHOLS was phonetic and that the name may be spelled some other way. BLACK also indicated that he made no serious effort to locate NICHOLS and never made contact with him.

The Boston Office advised by teletype dated June 30, 1950 in the case entitled, "THOMAS L. BLACK, was.; ESPIONAGE-R", that a search of the alumni records of Massachusetts Institute of Technology reflected the following graduates in metallurgy:

Details: T-1, of known reliability, reviewed the records of the Massachusetts Institute of Technology Alumni Association at the Massachusetts Institute of Technology, Cambridge, Massachusetts. No person was located who answers the description of NICHOLS. The unknown subject who apparently resided in East Rutherford, New Jersey, in 1937, was a graduate of the Metallurgy Course at the Massachusetts Institute of Technology and had a hobby of microscopes. The possibility is suggested that NICHOLS, nee NICHOLSKY, who entered the Massachusetts Institute of Technology in his Junior year receiving a B.S. in Biology in 1922, should be considered. The yearbook reflected NICHOLS was born on October 22, 1892, at Petrograd, Russia. He prepared at the Russian Naval Academy and was in the Russian Polar Expedition. His course, according to the yearbook, was Electrical Engineering.

Mail forwarded to him was returned to the Massachusetts Institute of Technology in 1934 from 793 130th Street, New York City. He gave an address in care of De Fransehe, 32 East 58th Street, New York City in 1938. His last known address in October 1937 was in care of the Board of Education, 383 State Street, Brooklyn, New York.

While it is noted that the data concerning ALEX GEORGE NICHOLS does not provide information which would identify him with the NICHOLS who resided in East Rutherford in 1937, it was noted that one of the records indicated that he was a biologist. If this record is correct, he would possibly have a hobby of microscopes; and it is believed that he should be definitely eliminated as no other individual is suggested on reviewing the Massachusetts Institute of Technology Alumni Records other than previously furnished.

In the event the photograph of ALEX GEORGE NICHOLS is desired, a copy can be obtained through officials at the Massachusetts Institute of Technology, Cambridge, Massachusetts.

LUNDY said that he does not know the exact nature of NICHOLS' work in the Navy, but that after World War I he never went to sea but spent most of his time in the planning for the construction of naval ships. LUNDY could furnish no information as to whether NICHOLS had ever resided in New Jersey. LUNDY said that WILLIAM NICHOLS is 54 years of age, is married, and has one son who was recently enlisted into the U. S. Navy.

RUSSELL explained that after approximately six months of close association with NICHOLSKY the latter left Public Service to accept a position with the DE BOTHEZAT DEPELLER CO. of Newark, New Jersey at which time NICHOLSKY moved to New York City.

RUSSELL pointed out that although he has had little, or no contact with NICHOLS within the past 20 years, he nevertheless feels certain that NICHOLSKY would never become involved in any Communist or Soviet activity. RUSSELL explained that when NICHOLSKY and his family were part of the Russian Czar's household that NICHOLSKY's wife's parents, brothers and sisters were killed by the Russians in 1917. RUSSELL stated that NICHOLSKY escaped and after coming to the United States he changed residences frequently due to a fear that Communist Agents would locate him.

It was because of this fact that NICHOLSKY changed his name to NICHOLS according to RUSSELL.

RUSSELL advised that NICHOLSKY was a brilliant electrical and mechanical engineer; a graduate of Mass Institute of Technology, and possessed a keen mechanical mind. He pointed out, however, that NICHOLSKY was not a metallurgist, nor was he interested in microscopy.

In explanation, RUSSELL advised that his, RUSSELL's, father had owned a large collection of arological slides and specimens of ore and metal, as well as two microscopes. RUSSELL recalled that one evening in NICHOLSKY's presents this material was brought out at his home and an attempt was made to interest NICHOLSKY in the use of microscopes. In spite of considerable discussion concerning the collection, it was readily apparant to RUSSELL that NICHOLSKY held neither an interest in, nor a knowledge of metallurgy or the use of microscopes.

RUSSELL pointed out further he is certain that NICHOLSKY never resided at East Rutherford, New Jersey or vicinity prior to 1940.

On the basis of known information concerning the unknown Subject in this matter, the above indicates that ERNEST GEORGE NICHOLS is not identical with the Subject.

N 65-4116

The following information pertains to JOHN A. NICHOLS of the B. F. Sturtvesant Electric Corporation. As set forth in referenced Newark report, the name of JOHN A. NICHOLS appears in the visitors record at Evans Signal Laboratory, Fort Monmouth, New Jersey as having visited ARON H. COLMAN in 1944.

Mr. HAROLD BRUSH, Manager, B. F. Sturtvesant Division of Westinghouse Electric Company, 1060 Broad Street, Newark, New Jersey, advised he is personally acquainted with JOHN A. NICHOLS, a former manager of the Newark Office of the above firm.

BRUSH stated that JOHN A. NICHOLS was sent to Newark, New Jersey from the Minneapolis, Minnesota Office in approximately 1943 and in about 1946 he resigned to accept employment with General Mills in Minneapolis.

According to BRUSH, JOHN A. NICHOLS is not a graduate of MIT, nor has he any knowledge of metallurgy or microscopes. BRUSH said at no time has NICHOLS resided in East Rutherford, New Jersey or vicinity.

BRUSH added that in 1935 NICHOLS was employed someplace in the middle west and did not come to New Jersey until approximately 1943.

The above information indicates that JOHN A. NICHOLS is not identical with the unknown subject of this case.

Through Mr. WILLIAM T. CRUDGE, Assistant Secretary, Public Service Electric and Gas Company, Newark, New Jersey, the records of Electric and Gas Service in the vicinity of East Rutherford, New Jersey were checked for any indication for service rendered during the period 1933-1935 to individuals by the name of NICHOLS or similar spelling. This check revealed no individuals in this vicinity not previously considered in this investigation.

It is noted that all information pertaining to the unknown subject NICHOLS was obtained from THOMAS L. BLACK, during investigation in the case entitled "THOMAS L. BLACK, was, ESPIONAGE - R". BLACK advised SAs of the Philadelphia Office that NICHOLS was a metallurgist who had graduated from M.I.T. and in 1935 resided in East Rutherford, New Jersey.

NK 65-4116

Investigation in instant case has eliminated all individuals by the name of NICHOLS or similar spellings, who have graduated from M.I.T., and who could possibly be identical with the Subject.

A check of former and present residences of similar names at East Rutherford and Rutherford has been made with negative results.

Inasmuch as all outstanding leads in this case have been covered no further investigation is being conducted and this case is being considered closed.

Newark is requested to reopen instant case. Boston is instructed to determine if rosters of tutors are maintained at MIT. Boston should also determine the feasibility of checking the personnel files of Russian students enrolled at MIT during the period 1925-1935, to ascertain if any of them were tutored by Unsub Nichols.

Since Black now recalls that he may have located the name of "Nichols" in a Rutherford directory, Newark should run out background information on Jasper Nichols and J. N. Nicholson, listed in the 1935 and 1936 telephone directories for East Rutherford.

Sufficient background information on persons by the name of "Nichols" listed in the 1935 and 1936 Rutherford directories should be developed to determine if they could possibly be identical with Unsub.

Newark should also check records of utility companies, tax records, and other logical sources for the towns of Rutherford and East Rutherford for possible leads in this case.

Re NYC report of SA Robert W. Coholan, 1-6-51. Suspect Alexander George Nichols, aka Nicholsky, as reflected in refrep, was a graduate of MIT and worked in Newark, New Jersey, which is about 20 miles from East Rutherford, New Jersey, during the pertinent period.

Suspect was described by an associate as a brilliant electrical engineer and a mechanical engineer. Refrep further reflects that suspect attended the Russian Naval Academy, Petrograd, Russia, from 1911 to 1915. On August 31, 1919, apparently while still residing in Russia, suspect was nominated as a member of the Production Committee for the All Mine Service of the United States by advice and consent of the U. S. Fuel Administration. Shortly thereafter, he came to the U. S. and has resided here since about 1920.

Rerep of SA Louis G. Turner, 2-21-51, Newark. Refrep reflects that suspect, according to one informant, did not have an interest in microscopes or metallurgy.

In view of suspect's background and ability as an engineer, he seems to be a logical person for the Soviets to have contacted.

A review of Bufiles reflects no subversive, derogatory information identifiable with suspect.

Notwithstanding the apparent inconsistency of the lack of interest in microscopes and metallurgy by suspect, NYC is hereby instructed to interview Alexander George Nichols, aka Nicholsky, 32 East 58th Street, New York City, to determine if he is identical with the Unknown Subject of this case. He is presently employed by the New York City Board of Education, 110 Livingston Street, Brooklyn, New York, as an assistant mechanical engineer.

Re Philadelphia file 100-1917 in the case entitled "Scott Fleming Nicoll; Internal Security - C." Nicoll was graduated from MIT in 1923 and was employed by the York Corporation as an engineer from 1924 to 1949. Nicoll resigned from York Corporation, York, Pa., rather than execute Atomic Energy Act loyalty oath forms required of him by the York Corporation. Nicoll was a key figure Communist of the Philadelphia Division in 1944 and was a known CP member during most of the 1940's.

Nicoll was regarded by his employer as a very capable employee.

Philadelphia is requested to ascertain if Nicoll temporarily resided in Rutherford or East Rutherford, New Jersey, during 1935. Consideration should be given to the possibility that Nicoll may have gone to Rutherford or East Rutherford on a temporary assignment for his employer, the York Corporation, in 1935. (100-23271)

Re Philadelphia report of SA Howard A. Searl in the case entitled "Ferdinand Philip Heller, was; Espionage - R," dated July 6, 1950, (Newark file 65-4080, Philadelphia file 65-4348, NYC file 65-15353). This report reveals that the name "Arthur Nicholas, aka Nick, 19 Gedney Terrace, White Plains, New York, and 30 Lawn Avenue, New Rochelle, New York, appeared in the address book of Heller. Heller has stated that Arthur Nicholas was a former fellow worker at Franco-American Chemical Company, Carlstadt, New Jersey. It is noted that Carlstadt is just a few miles from East Rutherford, New Jersey, where Thomas L. Black was to contact the unknown subject of instant case. It is further noted that Arthur Nicholas was a friend of Vera Kane, according to Heller.

Re Newark report of SA Paul R. Acker, 7-28-50, in the Heller case. This report reflects that Heller resided in East Rutherford, New Jersey, in 1929 or 1930. Investigation by the Newark office concerning Arthur Nicholas failed to establish much information concerning him, inasmuch as the records of the Franco-American Chemical Company had been destroyed.

Philadelphia is instructed to reinterview Heller concerning Arthur Nicholas. Information concerning the employment and whereabouts of Nicholas in 1935 should be determined. Heller should be questioned as to the nature of information at the disposal of Nicholas.

The New York City division should conduct investigation concerning Arthur Nicholas to determine his background, employment and residence in 1935. The attention of the NYC division is directed to the report of SA Francis W. Zangle, 11-20-50, in the Heller case. This report reflected that NYC indices were negative concerning Arthur Nicholas.

Reference is made to Bureau letter to Newark dated April 19, 1951, requesting Boston to determine if rosters of tutors are maintained at Massachusetts Institute of Technology, Cambridge, and the feasibility of checking the personnel files of Russian students enrolled at Massachusetts Institute of Technology during the period 1925-1935 to ascertain if any of them were tutored by Unknown Subject NICHOLS.

Professor PAUL CHAMBERS, Adviser to Foreign Students, Massachusetts Institute of Technology, Cambridge, Massachusetts, stated that during the period 1925-1933, the approved tutoring system was not in existence at MIT whereby a list of tutors was maintained by the faculty for the convenience of students who required tutoring. Accordingly, no record of those who tutored during this specific period is available.

Mr. CHAMBERS also stated that it would not be feasible to check the files of Russian students during the period 1925-1935 as such files would not disclose whether or not they had been tutored and would certainly not indicate the identity of the tutors if such had been employed by the students.

Accordingly, this case is being RUC'd to Newark, office of origin.

For information of offices not in receipt of prior communications this case, THOMAS L. BLACK, admitted Soviet agent, was instructed by his superior, PAUL PETERSEN, in about 1935 to locate one NICHOLS (phonetic) in East Rutherford, N.J., and re-establish contact. PETERSEN described NICHOLS as a metallurgist and a graduate of Massachusetts Institute of Technology, who had previously given valuable information to the Soviets. NICHOLS had a hobby of microscopy and may have tutored Russian students at MIT. Subject's name is phonetic and BLACK made no contact.

Relet set out a number of metallurgy and microscopy society as listed in "National Research Council Bulletin #115" for April, 1948.

BLACK has some recollection of having located NICHOLS' name in a 1935 Rutherford telephone directory. Instant directory contains the name JASPER NICHOLS and J. N. NICHOLSON, both of East Rutherford, N.J. Investigation to date has not identified either of these as the unknown subject.

Investigation reflects that of the societies listed only one has a New Jersey chapter, that being the American Society for Metals, whose treasurer is RICHARD W. THORNE, 246 Raymond Blvd, Newark, N.J. This chapter is affiliated with the parent organization located at 7301 Euclid Ave., Cleveland, Ohio.

Mr. THORNE advised that he is unable to locate any membership records prior to 1941. A list of current members contains the name of WILLIAM HENRY NIKOLA, 151 Woodland Ave., Rutherford, N.J., who is employed at Westinghouse Electric Corp., Jersey City, N.J. Newark will conduct investigation to determine if NIKOLA is identical with unknown subject.

1945 small membership books were published to reflect the membership of the individual officials but that in subsequent and prior years the Steel Foundry Directory listed the member companies geographically with the officers in charge carried as a sub-heading in the directory.

Mr. DONALDSON stated that he was not acquainted with any individual by the name of NICHOLS in New Jersey nor was he acquainted with any individual fitting the description of the unknown subject.

A review of the Steel Foundry Directories for the years 1930 to present failed to reflect a NICHOLS as being associated with any foundry in New Jersey during this period.

A review of the membership list of individuals for the years 1942 through 1945 reflected the following:

1942 - T. J. NICHOLS,
Vice-President in charge of operations
Fort Pitt Steel Casting Company
McKeesport, Pennsylvania.

1942 - W. H. NICHOLS,
Vice-President
Pittsburgh Rolls Division
Blawnox Corporation
Blawnox, Pennsylvania

1945 - E. J. NICHOLS,
Secretary
Malleable Iron Fittings Company
Bramford, Connecticut.

Mr. CHARLES W. BRIGGS, Technical and Research Director, Steel Founders Society of America, was telephonically contacted by DONALDSON who advised that BRIGGS had said that the only NICHOLS he recalled throughout his technical contacts was the NICHOLS associated with the Fort Pitt Steel Casting Company at McKeesport, Pennsylvania. Further, that this NICHOLS had been connected with the above concern for a great number of years.

CV. F.O.
65-2830

A review of the 1934 and 1935 Steel Directory revealed the name of T. J. NICHOLS as vice-president in charge of operations, Fort Pitt Steel Casting Company, McKeesport, Pennsylvania. Inasmuch as the aforementioned NICHOLS was with instant company during 1935 and since the unknown subject was presumably located at East Rutherford, New Jersey in 1935, no lead is being set out to further identify T. J. NICHOLS.

BRIGGS, according to DONALDSON, also advised that he (BRIGGS) did not know of any NICHOLS to be a member of the American Institute of Mining and Metallurgy or of the American Society for Metals.

For the information of the New Haven Office, THOMAS L. ~~BLACK~~, admitted Soviet agent, was instructed by his superior, PAUL PETERSEN, in about 1935 to locate one NICHOLS (phonetic), in East Rutherford, New Jersey, and re-establish contact. PETERSEN described NICHOLS as a metallurgist and a graduate of Massachusetts Institute of Technology who had previously given valuable information to the Soviets. NICHOLS has a hobby of microscopy and may have tutored Russian students at MIT. Subject's name is phonetic and BLACK made no contact.

BLACK had some knowledge of having located NICHOLS' name in a 1935 Rutherford telephone directory. A review of this directory reflects the names of JASPER NICHOLS and J. N. DETAILS:

ALEXANDER GEORGE NICHOLS was interviewed on July 24, 1951, at his place of employment at New York City Board of Education, 131 Livingston Street, Brooklyn, New York. Mr. NICHOLS furnished the following information concerning himself.

He stated that he was born November 4, 1895 in Warsaw, Poland (then Russian territory) as ALEXANDER GEORGE NICHOLSKY, the son of GEORGE and ANNE NICHOLSKY. He stated that his father was an official of the Czarist Imperial Regime and at the time of his birth was Chief Collector of Customs in Warsaw. He further stated that both his grandfather and Uncle were Generals in the Russian Imperial Army. He added that the other member of his immediate family was a brother, NICHOLAS, who died in New York City in September 1950. He stated that NICHOLAS was a farmer and had a farm in up-state New York. NICHOLS advised that he has never married.

NICHOLS stated that he attended the Russian Naval Academy from 1911 to 1915 and upon completion was commissioned a Second Lieutenant in the Russian Imperial Navy. He advised that he served in the Russian Navy until November 1917 at which time the Communists seized control of the Russian fleet and he was forced to go into hiding.

He explained that in the Spring of 1917 the so-called KERENSKY revolution took place and a Provisional Government was set up which was recognized by the United States. According to NICHOLS the Provisional Government, headed by KERENSKY, did not interfere with the operations of the Navy with the result that most of the officers remained at the same post they held under the Czarist Regime. The Officer Corp of the Imperial Navy in turn was loyal to the Provisional Government.

NY 65-15474

However, in the October Revolution the Communists seized power and succeeded in killing about fifty percent of the officers and gained control of the Navy. NICHOLS stated that at the time of the October Revolution he was in the Baltic Sea and after the fleet mutinied he fled to St. Petersburg (Leningrad) where he stayed with an uncle until February 1918. He stated that he then went to Vladivostok which was then under the control of the Provisional Government. He further stated that the country was in a state of chaos and he was able to travel from St. Petersburg to Vladivostok without too much difficulty as he wore civilian clothes.

NICHOLS stated that a short time after he was in Vladivostok he left for the United States. He advised that he was able to come to the United States through the efforts of the Provisional Government who granted him a passport. NICHOLS stated that he came to the United States from Vladivostok by way of Japan and entered the United States from San Francisco in August 1918. He stated that he went directly to Washington D. C. where he was appointed a member of the United States Fuel Administration. He indicated that he obtained this position through the Russian Embassy in Washington D. C. His duties consisted of visiting the mine fields of Pennsylvania and delivering lectures to the Russian miners. He explained that at that time (September 1918) the allies were desperately in need of coal and absenteeism had set in among the Russian miners who would only work when they needed money. He advised that this position lasted until the armistice in November 1918, at which time he was employed in the Russian Embassy, Washington D. C., as an aide, and his duties consisted of deciphering coded messages.

In May 1919 the Russian Embassy ordered him to return to Vladivostok and he arrived in Japan in June 1919 under a diplomatic passport issued by the Russian Provisional Government. He stated that he was forced to stay a few months in Japan undergoing surgery and finally arrived in Vladivostok in October 1919.

NICHOLS advised that at that time Vladivostok was still in control of the Provisional Government and the United States had sent a expeditionary force to Vladivostok under General GRAVES, to fight the Bolsheviks. He advised that he was under instructions to work his way into the interior of Siberia and help lead the forces who were fighting the Communists. He stated that he went to Omsk

NY 65-15474

and Krasnoyarsk and remained there for a few months until the Communists seized control, at which time he returned to Vladivostok. Due to the continued success of the Communist Forces and Communist demonstrations in Vladivostok he left there in February 1920 aboard a Russian troop ship and went to Japan. He then returned to the United States on a diplomatic passport via the Panama Canal and arrived at New Orleans in June 1920.

NICHOLS stated that in October 1920 he entered Massachusetts Institute of Technology through the assistance of the Russian Provisional Government. He explained that a fund had been set up by the Provisional Government and was used to send individuals like himself to school. NICHOLS stated that he attended Massachusetts Institute of Technology from 1920 to 1922 and received a degree in electrical engineering. He was then employed by the Public Service Company, Newark, New Jersey from 1922 to 1926. He stated that while working for Public Service he lived at Summit, Orange, Hoboken, and Newark, all in New Jersey.

From 1926 to 1934 he stated he was employed as General Manager by de Botherat Impeller Company, Park Avenue, New York. He stated that this company manufactured ventilating equipment, such as fans and blowers. During this period of employment he resided at Beechhurst, Long Island, New York, with NICHOLAS de TRANSEHE. He added that he has lived with NICHOLAS de TRANSEHE and his wife since 1926 at Beechhurst, Long Island, and at 32 East 58th Street, New York City. He advised that de TRANSEHE was also a former officer in the Russian Imperial Navy.

NICHOLS stated that in 1935 he went to work for the Department of Parks, New York City, as a Senior Draftsman. He stated that this work came under the supervision of the Works Progress Administration and he remained with the Department of Parks until 1939. In 1939 he went to work for the Department of Public Works, New York City, as an electrical engineer and remained there until 1944, at which time he assumed his present position as an assistant mechanical engineer at the New York City Board of Education, Brooklyn, New York.

NICHOLS stated that he filed a Declaration of Intention to Become a United States Citizen on August 21, 1922, at Boston, Massachusetts, and was naturalized on June 30, 1926, in the United States District Court, Newark, New Jersey.

NY 65-15474

NICHOLS advised that he has no interest in metallurgy and does not have a hobby of microscopes. He added that he does not own a microscope nor has he ever been interested in the study of microscopy. He further advised that he has never lived in East Rutherford, New Jersey.

NICHOLS stated that he has never been contacted by any representative of the Soviet Government and he believes that the Soviets would not contact him. He expressed the belief that the Soviets have a pretty good idea as to whom they should contact and who would be reliable. He stated that due to his past record as an officer in the Russian Imperial Navy and since his family was prominent during the Czarist Regime the Russians would not attempt to contact him. He stated that he is violently anti-Communist and would not have done anything to harm the United States.

Mr. GEORGE HELD of 17 Gedney Terrace, White Plains, New York, advised that Mr. and Mrs. BOGART have lived at 19 Gedney Terrace and have owned the house at that address for approximately 25 years and further advised that they have an excellent reputation.

Mrs. GERTRUDE C. BOGART was interviewed and advised that she had an individual who roomed at her house for approximately one and one-half years around 1935, whose true name was ARTHUR MARION NICHOLS. She advised that he had roomed at the YMCA in White Plains before he came to her house. At that time he had two brothers living in White Plains, namely, LESTER and MOSES NICHOLS.

Mrs. BOGART further advised that ARTHUR NICHOLS worked for an insurance company in White Plains around 1935, and that he had come to White Plains from someplace in New Jersey. She stated that she has not seen ARTHUR NICHOLS since 1935 and has no information regarding his present occupation or whereabouts. She stated that during the time he lived here he seemed to be a normal type young man, and as far as she knew, was entirely loyal.

The records of the Westchester Credit Bureau, White Plains, New York, indicated that ARTHUR M. NICHOLS and his wife, BETTY, lived in 1941 at 46 Quarropas Street, White Plains. Also, he was employed as an adjuster by the Fire Companies Adjustment Bureau located at 31 Mamaroneck Avenue, White Plains, New York. The credit records indicated an inquiry in 1941 by the Peoples National Bank and Trust Company of White Plains.

The credit bureau records also indicated that a brother, LESTER MERRITT NICHOLS, and his wife, DOROTHY, presently reside at 116 Russell Street, White Plains, New York. LESTER is employed by the City of New York as a director of public relations.

[REDACTED] Peoples 7c
National Bank and Trust Company, White Plains, New York, advised that ARTHUR M. NICHOLS had obtained a loan from that bank in August, 1940 and had repaid the loan in August, 1941. At that time he resided in the Riverpark Apartments, White Plains, New York. NICHOLS made several subsequent requests for loans, all of which were refused. The bank records showed the same place of employment as previously indicated.

NY 65-15474

The bank records also indicated that NICHOLS had done business with the Morris Plan Industrial Bank in New York City.

Mr. VICTOR MILLER, a clerk at the United States Post Office, White Plains, New York, North Station, advised that he resides at Riverpark Apartments, White Plains, and that he knew ARTHUR NICHOLS personally while he lived there and has maintained contact with him since he has left there. He advised that NICHOLS resided for several years at the Riverpark Apartments and left there in 1943, at which time he went to Baltimore, Maryland. Subsequently he moved to South Weare, New Hampshire, and then to Caribou, Maine, and then to Presque Isle, Maine.

He recently moved to Woodridge, New Jersey, and either has already or will in the near future, move to Hasbrouck Heights, New Jersey.

Mr. MILLER was unable to furnish exact street addresses in the above towns. He stated that he was fairly friendly with NICHOLS during the time NICHOLS lived here and has visited him several times since he has left White Plains. MILLER'S wife and NICHOLS' wife still carry on an infrequent correspondence.

Mr. MILLER advised that he has no information which would indicate that NICHOLS is disloyal. He described NICHOLS as follows:

Race:	White
Sex:	Male
Age:	Approximately 45 years
Height:	6'
Weight:	180 pounds

Mr. BANNER said that he is not acquainted with the personal life and activities of NICHOLS, but that he knows that NICHOLS has a daughter about twenty-four years of age. It is his assumption that NICHOLS is a college graduate. He was not able to state where he attended college or the course he took. Records of the American Microscopical Society, Ann Arbor, Michigan, for period 1930 to 1951 indicate only one name similar to alias of unknown subject: **RICHARD U. NICHOLAS**, Army War College, Washington, D. C., who joined Society in 1940.

- RUC -

DETAILS:

At Ann Arbor, Michigan:

Dr. F. E. EGGLETON, Department of Zoology, University of Michigan, advised he is Secretary of the American Microscopical Society. He stated that no one with a name similar to NICHOLS is known personally to him as a member of this Society.

He described the organization as an international society principally made up of professional scientists in the fields of botany and zoology who are interested in the microscope as a means of research. Others in the Society, he said, have the optics of the microscope as such as their interest in the Society. He said there are also a few "amateurs" or "non-professionals" who belong to the Society through their hobby of microscopy.

The principal function of the organization is the publication of a quarterly journal to the entire membership, the current members being listed in each January edition.

Through a review of these January editions, the membership of the organization was observed from January 1930 through January 1951. The only name remotely similar to the alias of unknown subject was one RICHARD U. NICHOLAS, whose address was noted as the Army War College, Washington, D. C. He was admitted to membership in 1940 and remained a member through 1942.

Dr. EGGLETON located the original application card for this individual; however, it contained no additional information except that it noted that at the same time he made application to the American Microscopical Society he was making application for membership in the American Association for the Advancement of Science.

Dr. EGGLETON advised the name RICHARD U. NICHOLAS does not appear in any of his reference books pertaining to known scientists in the United States. It is noted that Dr. EGGLETON has an extensive scientific library containing many books listing various scientists in the many scientific fields, both in education and private enterprise. He was unable to locate any reference to RICHARD U. NICHOLAS in any of these volumes nor in the membership list for the American Association for the Advancement of Science.

Dr. EGGLETON concluded that RICHARD U. NICHOLAS, as a member of the American Microscopical Society, would be considered an "amateur" or "hobbyist" in microscopy.

NICHOLS was employed as a truck driver, and as such, had access only to material normally available to truckers. According to HELLER, NICHOLS never showed any active interest in political discussions of any kind.

HELLER said that he believed NICHOLS left the Franco-American firm sometime in 1935. He also said that in 1935, NICHOLS was employed as an adjuster with an insurance firm. HELLER could not recall the name of this firm.

NICHOLS was a highschool graduate only and not educated in a technical way at all. HELLER said he believed NICHOLS had been a top flight athlete while at East Rutherford High School.

HELLER said that NICHOLS had never been a regular caller at VERA KANE's residence in New York City.

At York, Pennsylvania

He advised that SCOTT FLEMING NICOLL had done research work in air conditioning in and around New York City at this time.

He also advised that he recalled visiting SCOTT NICOLL on many occasions. He has never seen or observed a microscope in the residence of NICOLL. CONSLEY also stated that he recalled in 1935 that NICOLL was involved in setting up a gas burning furnace in his home. He stated that NICOLL had boat-building as a hobby. CONSLEY also said that any knowledge NICOLL would have concerning metallurgy would be that he received in an engineering course only.
